## F READING CLOCK FOR HALF-HOUR INTERVALS

### Method Reading Clock for Half-Hour Intervals

- **Hours:** The little hand points to the hour. Look at the number it's on. If it's between two numbers, choose the smaller one.
- **Minutes:** The big hand points to the minutes. Look at the number it's on. If it's on 12, it's 0 minutes (o'clock). If it's on 6, it's 30 minutes (half past).

**Ex:** What time does this clock show?

Morning

*Answer:*

- The little hand points between 7 and 8. We pick the smaller one, so it's 7. That's the hour.
- The big hand points to 6. That means 30 minutes.
- It's morning, so the time is 7:30 in the morning.
